

# Front-end developer specialized in React

## Nicolás Posa

I'm a Front end developer specialized in React based in Argentina who loves to take challenging projects. I enjoy developing fast and intuitive web pages and I have a passion for learning more about the IT world.

Rio Gallegos, Santa Cruz,  
Argentina

### WEB DEVELOPMENT PROJECTS

#### Petgram

[Source Code](#) [Live Demo](#)

An application made with React where you can find pets pics, with a good SEO using React Helmet.

Stack: React, Styled-Components, GraphQL, React Helmet, React Hooks

#### E-commerce

[Source Code](#) [Live Demo](#)

A super fast E-commerce made with Gatsby and using Stripe for payments and deployment on Netlify

Stack: Gatsby.js, GraphQL, styled-components, React

#### Rick and Morty project

[Source Code](#) [Live Demo](#)

Using the Rick and Morty API I made a page where you can find all the characters of the television show

Stack: React and Css
